SUMMARY

As a Computer Science graduate from Dinamika Bangsa University, I have honed my knowledge in the field of computing. By attending the bootcamp at Hacktiv8, I focused on fullstack JavaScript, enriching my programming skills. My strong interest in this field encourages me to continue developing. With a combination of educational background and practical experience, I am ready to face the challenges of the world of work with confidence and relevant skills.

EDUCATION

Hacktiv8

Jakarta, Indonesia

FullStack JavaScript Immersive Program ([Transcript](#))

January 2024 – March 2024

- Score: 86.60 / 100
- Final Project: Partner Of Life - A web application designed to assist prospective brides and grooms in organizing their dream wedding.
- Contributed as a FullStack developer and collaborated with four people
- Responsibility: Developed and deployed the application, integrated third-party APIs for payment gateways and image uploading functionalities, worked on the CMS section, performed wiring tasks, and debugged issues on the client and server side.

Universitas Dinamika Bangsa

Jambi, Indonesia

Bachelor of Computer Science ([Transcript](#))

2018 – 2022

- Score: GPA 3.64 / 4.00
- Concentration: Creating and building games both offline and online, ranging from 2D to 3D environments.
- Final Project: Implementing the A* (A star) algorithm in the 3D Maze Runner: Find A Key game. The project involved designing and developing a 3D maze game where players navigate through the maze to find a key, using the A* algorithm for pathfinding.

WORK EXPERIENCE

Andika Suraya Store

Jambi, Indonesia

IT Support Specialist

November 2016 – March 2017

- Compiled and reported documentation for repairs and maintenance of computer equipment, documenting all actions taken, averaging 15 reports per week.
- Interacted with customers to provide effective solutions to technical problems faced, addressing inquiries promptly and resolving an average of 10 technical issues daily.
- Collaborated with the sales team to identify technological requirements for new product launches, contributing to the successful introduction of 3 new products to the market.

SKILLS

Language: JavaScript, TypeScript, C#, Java

Front End: HTML & CSS, Bootstrap, Tailwind, EJS, React, React Native, NextJS, Redux

Back End: NodeJS, NestJS, Express, Sequelize, Prisma, GraphQL, Apollo Server, Redis, Rest API, Elastic Search, Spring Boot

Testing: Jest, Supertest

Database: PostgreSQL, MySQL, MongoDB, Supabase

Deploy: AWS, Firebase, Vercel

GameDev: Unity Engine

PROJECTS

[Partner-Of-Life](#)

April 2024

Wedding Organizer website that helps prospective brides and grooms realize their dream wedding
Tech stack: React, NextJS, MongoDB, TalkJS, ExpressJS

E-Commerce

April 2024

E-commerce application with Next.js integration for a responsive and attractive frontend
Tech stack: NextJS, TypeScript, MongoDB

Imagegram

April 2024

Imagegram application with interactive photo sharing and social networking features
Tech stack: React Native, GraphQL, Apollo Server, MongoDB

ClashInsight

March 2024

Web for Clash of Clans players to track players and clans with integrated RESTful API
Tech stack: React, NodeJS, ExpressJS, RESTful API, PostgreSQL, Sequelize

CircleKita

February 2024

A social media platform that allows users to interact and share content
Tech stack: NodeJS, ExpressJS, PostgreSQL, Sequelize, EJS (Embedded JavaScript Templates)
